Solar Geyser Prices September 2019

Stock No.	Size	Description	Price
K-ITS-EVAC-1	150Lt.	15 Tube collector, accessories & installation (excl. traveling)	R11 140.00
K-1800-15	150Lt.	Evacuated 15 Tube collector mounting frame for flat roof	R 790.00
K-ITS-EVAC-2	200Lt.	20 Tube collector, accessories & installation (excl.traveling)	R12 800.00
K-1800-20	200Lt.	Evacuated 20 Tube collector mounting frame for flat roof	R 1 080.00
K-ITS-FP-1	150Lt.	1 x 2.0m ² Plate collector, accessories & installation (excl.traveling)	R 9 500.00
K-ITS-FP-2	200Lt.	1 x 2.4m ² Plate collector, accessories & installation ditto	R 9 800.00
		The above item are Retrofits to existing geysers that are 2 years and younger	
Heattech-B Class	150Lt.	15 Tube collector & pipes, geyser, all accessories & installation(excl.travel)	R15 950.00
Heattech-B Class	200Lt.	20 Tube collector & pipes, geyser, all accessories & installation ditto	R18 780.00
Heattech-B Class	150Lt.	1 x 2.0m ² Plate collector & pipes, geyser, all accessories & install. ditto	R13 895.00
Heattech-B Class	200Lt.	1 x 2.4m ² Plate collector & pipes, geyser, all accessories & install. ditto	R15 895.00
		Additional copper piping is extra and will be quoted if needed	
Kwiksol Indirect	150Lt.	15 Tube collector & pipes, geyser, all accessories & installation(excl.travel)	R18 875.00
Kwiksol Indirect	200Lt.	20 Tube collector & pipes, geyser, all accessories & installation ditto	R20 745.00
Kwiksol Indirect	300Lt.	2 x Tube collector & pipes, geyser, all accessories & installation ditto	R24 665.00
Kwiksol Indirect	150Lt.	1 x 2.0m ² collector & pipes, geyser, all accessories & installation ditto	R16 950.00
Kwiksol Indirect	200Lt.	1 x 2.4m ² collector & pipes, geyser, all accessories & installation ditto	R18 255.00
Kwiksol Indirect	300Lt.	2 x 2.0m ² collector & pipes, geyser, all accessories & installation ditto	R24 540.00
		Additional copper piping is extra and will be quoted if needed	
		We supply all Heattech, Kwiksol & XSteam geysers, copper pipes and accessories, like Banjo, tempering, non-return valves, pumps and controls	
		*All equipment has a 5 years manufacturers warrantee	
		**Installation has a 1 year workmen & fitment warrantee & guarantee	
		***Please contact us for all Heating Pump Systems incl. Pool Heating	

Quote Conditions:

All prices exclude VAT

Traveling outside 20-kilometer radius will be charged @R4.50 per km.

Where possible site visits are recommended

Quote only valid once site inspection being conducted

Prices subject to change without prior notice, please confirm validity

Quotes will be done on request, with payment and banking details

Payment Terms: - Upfront 80% Deposit balance on completion of install

1. Additional copper piping or fittings required for Retrofit or new installation over and above what's available in accessories kit will be extra and the client will be informed before installation
2. We try and minimize water loss but, in most instances, if unavoidable
3. Our prices include installation inside a 20km radius, traveling outside this 20km radius charges will be R4.50 per km both ways

South Africa's largest supplier of **Solar Water Heating** and **Heat Pump** heating systems

Heat Pumps

Domestic Heat pumps, Pool heat pumps & Commercial heat pumps

DOMESTIC HEAT PUMPS

ITS3HD heat pump

Suitable for a 150L geyser, low demand

ITS4.7HDP heat pump

Suitable for a 150L, 200L, 300L geyser

ITS5.0HDP-Super heat pump

Suitable for a 150L, 200L, 300L geyser

When you purchase an ITS heat pump, we have the entire installation available for purchase as well. The kit includes

2 x ball valves

1 x Y-strainer

1 x air release valve

1 x set of wall mounting brackets

1 x change over switch

1 x banjo conversion valve (if being installed on to an electric geyser)

1 x loading valve

COMMERCIAL HEAT PUMPS

ITS11.8HD heat pump

If unsure of sizing, call us so that we can assist with the spec thereof.

ITS17VD heat pump

If unsure of sizing, call us so that we can assist with the spec thereof.

ITS24.5VD3 heat pump

If unsure of sizing, call us so that we can assist with the spec thereof.

ITS50VD3 heat pump

If unsure of sizing, call us so that we can assist with the spec thereof.

All these larger spec commercial heat pumps also come with kits: external circulation pump, air release and a loading valve.

Prices are available upon request.

SWIMMING POOL HEAT PUMPS

ITS5.6HPP heat pump

Suitable for smaller pools, up to about 10 000L (with a cover)

ITS12.5HPP heat pump

Suitable for pools up to about 45 000L (with a cover)

ITS17HPP heat pump

Suitable for pools up to about 65 000L (with a cover)

ITS26HP3 heat pump

Suitable for pools up to about 90 000L (with a cover)

ITS55HP3 heat pump

Suitable for pools up to about 180 000L (with a cover)

Product Catalogue 2019

Solar Collectors

Flat plate and evacuated tube collectors

FLAT PLATE COLLECTORS

ITS2.0sqm Flat Plate

Suitable for a 100L and a 150L geyser

ITS2.4sqm Flat Plate

Suitable for a 200L geyser

EVACUATED TUBE COLLECTORS

ITS – 10 Tube collector

Suitable for a 100L geyser

ITS – 15 Tube collector

Suitable for a 150L geyser

ITS – 20 Tube collector

Suitable for a 200L geyser

Solar Components

All the smaller solar components required to complete a successful installation

ITS 12V Circulation Pump

ITS 220V Circulation Pump

Tempering valve

SR81 Solar Controller

ITS Air Release Valves (110 and 180 Degree)

ITS Non Return Valve

10W Pv Panels

Change over switch

Product Catalogue 2019

Geysers – Smaller Spec

A range of locally manufactured geysers

itsTM
heat pumps & solar

Heat Tech

Sizes available:
100L, 150L, 200L, 250L.

Kwikot –

*Kwikot Electric, Siuper Line,
Direct Solar & Indirect*

Sizes available:
150L, 200L, 300L.

Xstream Geysers

Sizes available:
150L, 200L.

Storage Tanks – Larger Spec German Tanks

A wide range of imported German tanks in various sizes.

We import a range of very high quality storage tanks. These tanks boast the highest efficiency rating in the world and make the best solution for large scale domestic hot water solutions.

Available Sizes & Spec

- 500L Direct (no heat exchanger)
- 500L Single coil (single heat exchanger)
- 500L Dual Coil (dual heat exchanger)

- 1000L Direct
- 1000L Dual Coil

- 1500L Direct
- 2000L Direct
- 3000L Direct

- 500L Buffer Tank
- 1000L Buffer tank

All Tanks are readily available except the 2000L and 3000L tanks of which we require a few weeks lead time.

Expansion Tanks –

We also import a range of expansion tanks. These sizes are as follows:

Available Sizes & Spec

- 8L Solar (10 bar)
- 25L Solar
- 25L Potable
- 60L Potable
- 100L potable

Solar Pool Heating – Heliocol Panels

ITS are proud distributors of the very high quality Heliocol solar pool heating panels from Israel.

Available Sizes & Spec

We have a range of sizes available, so if you require a system specification, please contact us to formulate a system quote that includes the full installation kit tailored for a specific pool size.

For more information on this fantastic product please email us and we will send you all you need to know.
